

MATERIAL SAFETY DATA SHEET

Product Name: TUBE-LUBE™ 346
Chemical Description: Aqua propylene glycol polyethylene glycol
Canada WHMIS Class: NC
Date Reviewed: June 27, 2012

HAZARDOUS INGREDIENTS

This product contains no reportable hazardous components under 29 CFR 1910.1200. There are no OSHA or ACGIH threshold limit values for the product or any of its ingredients. All components are listed on the TSCA inventory.

HAZARDOUS IDENTIFICATION

	<u>HMIS</u>	<u>NFPA</u>	<u>KEY</u>	
Health	0	0	0 - minimal	3 - serious
Flammability	0	0	1 - slight	4 - severe
Reactive	0	0	2 - moderate	

FIRST AID

Eye Contact: Flush eyes with a large quantity of water for 15 minutes. If irritation continues, seek medical attention.
Skin Contact: If skin becomes irritated, wash area thoroughly with soap and water. If irritation continues, seek medical attention.
Inhalation (Breathing): No first aid expected to be required, not an inhalation hazard.
Ingestion (Swallowing): No first aid expected to be required. If difficulties arise, contact a physician.

FIRE AND EXPLOSION HAZARD

Flash Point: None
Flammable Limits: Product is not flammable
Extinguishing Media: Does not apply
Special Procedures: Does not apply
Unusual Hazards: Sealed container can build up pressure when exposed to high heat. Cool containers with water

Hazardous Decomposition Products: High temperature steam, potentially carbon monoxide and carbon dioxide

ACCIDENTAL RELEASE MEASURES

Tube Lube™ is extremely slippery. It should be washed, swept, or squeegeed from floor using wet mops. Oxidizing agents, such as household bleach, can be used to eliminate the slippery character. Outside, spills should be covered with sand, dirt, gravel or calcium chloride.

HANDLING & STORAGE

Keep in a cool and ventilated place. Keep product containers closed when not in use. Avoid spills and clean them up immediately when they occur. Product is very slippery. Wash hands after use.

CONTROL MEASURES

Respiratory Protection: Normal ventilation adequate
Protective Gloves: For repeated or prolonged skin contact, the use of impermeable gloves is recommended to prevent drying and possible irritation
Eye Protection: Safety glasses recommended

PHYSICAL DATA

Appearance: Blue gel
Odor: None
Viscosity: 30'.000 cp
Specific Gravity: gr/cm³ 1
pH: 7 neutral
Use Temperature: -10 + 50° C
Toxicity: Non-toxic
Biodegradability: Product is biodegradable
WGK: 1 (according to German regulations 1999)

REACTIVITY DATA

Stability: The product is stable in normal conditions of use and storage. Avoid materials which react with water.

HEALTH HAZARD / TOXICOLOGICAL INFORMATION

There are no known episodes of health hazards due to exposure to the product. Nevertheless, it is recommended that good industrial hygiene practice be observed.

ECOLOGICAL INFORMATION

Inert disturbance mass

DISPOSAL CONSIDERATIONS

Under current regulations: Special Waste.

TRANSPORTATION

DOT Hazard Class: Not applicable
DOT Shipping Name: Not applicable
Transport of product is not included in any risk category.

REGULATORY STATUS

Hazard Categories for SARA Section 311/312 Reporting	Acute No	Chronic No	Fire No	Pressure No	Reactive No
---	--------------------	----------------------	-------------------	-----------------------	-----------------------

The components of TUBE-LUBE are not affected by these Superfund regulations.

Disclaimer: The information and recommendations contained herein are believed to be reliable. However, the supplier makes no warranties, express or implied, concerning the use of this product. The buyer must determine conditions of safe usage and assumes all risk and liabilities in handling this product.

OTHER INFORMATION

Use in accordance with good operating practices and prevent runoff into the environment. The product is not subject to be marked with the symbol "N", or to be described as hazardous for the environment.
