

# EARTHFLEX™

## FLEXIBLE GROUND MOUNT DELINEATOR SYSTEM

### TD5500 MODEL

DEPENDABLE PRODUCT WITH NEW DESIGN INNOVATIONS

#### FEATURES:

- ' Unique Earthflex™ hinge system allows for repeated high speed vehicle and tire impacts and return post to its original position.
- ' The most flexible, durable, impact-resistant marker designed to withstand the extremes of hot or cold weather.
- ' High visibility delineation ideal for marking highways, on/off ramps, curves, boundary lines, and parking lots can be ordered in various colors and lengths.
- ' Insertion of the two-piece post and hinge into the soil anchor requires no tools reducing installation and maintenance costs.
- ' The galvanized steel soil anchor can be driven into compacted soils with commonly used tools.
- ' If post replacement becomes necessary, the soil anchor and hinge remain in the ground; simply remove two bolts, replace post, and reattach bolts to complete replacement.

- ' Round posts can be flattened on top for dual sided application of reflective sheeting, decals, numbers or letters to use as a guidepost, hazard, boundary, utility or message marker.

**MADE IN  
USA**
